

Environmental Policy

We at Oil Salvage Limited are committed to achieving the best environmental performance possible. Oil Salvage has a “A GREENER VISION” with its state-of-the-art facility and waste oil re-refining plant we can ensure that we have ZERO waste to landfill.

We at Oil Salvage realise that: -

Our Policy begins with the consideration our impact has on both the local and wider communities and will consider transportation or raw materials, energy usage, distribution of finished product and discharge of emissions and disposal of waste.

The Company therefore has the following commitments and objectives to: -

- Minimize disturbance to the local and global environment and to the quality of life of the local communities.
- Comply with all relevant statutory regulations.
- Maintain the highest environmental standards within the Company premises.
- Through the planning and design stage of any new equipment we will meet the Best Available Technique standards.
- To provide our employees with site specific training to help reduce our company activities impact on the environment
- Maintain an open and honest relationship with our local community.
- To conduct regular environmental audits to ensure that best practice procedures are fully implemented.
- Circular Economy is a top priority for Oil Salvage Ltd and we are closing the loop on waste materials within the UK by working in line with the government’s 25-year environmental plan.

Overall

To develop the Company paying full regard to the environment and considering the view of all parties whose interest may be affected. The Company will act in accordance with appropriate codes of practice. This Policy will be communicated to all employees.

Organisation

The Managing Director has ultimate responsibility for this policy and through visible leadership and 2-way communication will implement within the business through the management team.
