

Environmental And Sustainability Policy

We at Oil Salvage Limited are committed to achieving the best environmental performance possible.

Oil Salvage has a “A GREENER VISION” with its state-of-the-art facility and waste oil re-refining plant we can close the loop on circular economy.

We at Oil Salvage realise that: -

Our Policy begins with the consideration our impact has on both the local and wider environment and communities and will consider transportation or raw materials, energy usage, distribution of finished product, discharge of emissions and disposal of waste.

The Company therefore has the following commitments and objectives to: -

- Minimize disturbance to the local and global environment and to the quality of life of the local communities.
- Comply with all relevant statutory regulations and legislation.
- Maintain the highest level of environmental standards within the Company premises and with our vehicles.
- Through the planning and design stage of any new equipment we will meet the Best Available Technique standards.
- To provide our employees with specific training to help reduce our impact on the environment.
- Maintain an open and honest relationship with our local community and regulatory bodies.
- To conduct regular Environmental audits to ensure that best practice procedures are fully implemented.
- Circular Economy is a top priority for Oil Salvage Ltd and we are closing the loop on waste materials within the UK by working in line with the government’s 25-year Environmental plan.

Overall

To develop the Company, paying full regard to the Environment and considering the view of all parties whose interest may be affected. The Company will act in accordance with appropriate codes of practice. This Policy will be communicated to all employees.
